

THE SOCIETY FOR  
**General Psychology  
& Interdisciplinary Inquiry**

---

APA DIVISION 1

## Div. 1 (The Society for General Psychology & Interdisciplinary Inquiry)

promotes the creation of coherence among psychology's diverse specialties by encouraging members to incorporate multiple perspectives from psychology's sub-disciplines into their research, theory and practice. Div. 1 welcomes membership from students of psychology, academics, researchers, professional practitioners and public interest psychologists.

### Why I

Being a member of Division 1 allows me to engage with psychology in all of its breadth and depth. Reading the journal and meeting with Division 1 colleagues at conferences exposes me to new areas of psychology. This feeds my curiosity and encourages me to be more integrative in my own work. I've also enjoyed attending the Division 1 workshops!

– Clare Mehta  
Member since 2016

## Benefits of Membership

- Subscription to *The Review of General Psychology*, Division 1's journal and to *The General Psychologist*, the Division 1 newsletter
- Eligible for Division 1 grants and awards
- Eligible to register for free Division 1 workshops that support professional development
